Describe the three business environment factors that can put pressure on an organisation.

Maximum 150 words.

The three business environment factors that can put pressure on an organisation are:

Customers/Clients: If they reduce their consumption of products/services, organisation benefits also decrease.

Competitors: If they offer better cost-efficient products/services, our volume of business will decrease too.

Providers/Manufacturers: If they have a break of stock, it will generate a merme of production/operative to us.

List the five main forces that can affect an organisation's competitiveness, according to Porter's model.

Maximum 150 words.

Porter's five forces are:

- Competitive Rivalry: The intensity of competition among existing firms, driven by factors like the number of competitors, industry growth rates, and product differentiation.
- Threat of New Entrants: The ease with which new competitors can enter the market, influenced by different barriers such as scale benefits, brand loyalty, and capital costs.
- Bargaining Power of Suppliers: The ability of suppliers to drive up input prices or reduce quality, which is stronger when there are few suppliers or unique inputs.
- Bargaining Power of Buyers: The influence customers have to push prices down or demand better quality, which increases when buyers are concentrated or face low switching costs.
- Threat of Substitute Products or Services: The probability that customers will switch to alternative solutions that perform the same function, often limited by perceived product differentiation and price-performance balance.

List and briefly explain the five most common strategies for competitive advantage.

Maximum 250 words.

The five most common strategies for competitive advantage are:

- Cost Leadership: Offering the lowest sustainable cost per unit to win on price.
- Differentiation: Delivering unique products or services that buyers value enough to pay a premium for, exemplified by **Ferrari** or **Apple**.
- Focus (Niche): Focusing and serving a specific segment better than others can.
- Blue Ocean Creation: Creating highly demand by entering new market spaces rather than competing in existing ones.
- Speed/First-Mover Advantage: Reaching the market before rivals to convert lead time into a strong position.
